PROFESSIONAL SUMMARY

Experienced Software Engineer with 2+ years of expertise in designing, developing, and maintaining robust software solutions. Proficient in Java, Spring Boot, Hibernate, and React.js with strong focus on TDD and microservices architecture.

WORK EXPERIENCE

Software Engineer - Capgemini Technology Service India Limited

Dec 2022 - March 2025

- â€¢ Developed robust APIs using Java Spring Boot and Hibernate

- â€¢ Implemented microservices architecture using Spring Cloud

- â€¢ Achieved 10% reduction in code duplication and 15% increase in maintainability

- â€¢ Improved system functionality by 10% through legacy system evaluation

Intern, JEE Full Stack with React - Capgemini

July 2022 - Dec 2022

- â€¢ Built full-stack web applications using React.js, Java, Spring Boot, and MySQL

- â€¢ Developed reusable React components and integrated APIs using Axios

PROJECTS

Product Review Analysis System

- â€¢ Developed scalable monolithic architecture platform

- â€¢ Implemented Spring AOP for logging, error tracking, and authorization

- â€¢ Technologies: Java, Spring Boot, PostgreSQL, Spring Security, JUnit

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML5, CSS

Frameworks: Spring Boot, React.js, Hibernate, Maven

Databases: PostgreSQL, MySQL, MongoDB

Tools: Git, Jenkins, Postman, SonarQube, ActiveMQ

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Sanjay Ghodawat University, Kolhapur, Maharashtra

Graduated: June 2022 | GPA: 8.2/10

CERTIFICATIONS

- â€¢ Microsoft Certified: Azure Fundamentals AZ-900

- â€¢ Microsoft Certified: Azure Developer Associate AZ-204
